

TRAXLOK™ ...design and innovation from Trax®

franchising opportunity
steel balance weight manufacture

TRAX
balance weight technology

Manufacturing cell for steel clip-on weights

Trax® is one of the world's leading balance weight manufacturers, supplying weights to Original Equipment and aftermarket customers.

The company has developed a manufacturing cell to locally assemble steel clip-on weights using the TRAX-LOK™ process and is now offering to franchise this unique solution around the world (outside of Europe).

Profit potential – a licensed manufacturing opportunity

- A growing market for lead-free steel balance weights
- High levels of automation and a small flexible manufacturing cell 3m x 4.5m (10ft x 13ft)
- High performance balance weights including CAM-BACK™ clips.
- Unique balance weight design features & benefits (patents and design registrations applied for)
- Easy to install with training and support included.
- Components supplied by Trax® for local assembly

Steel – the preferred Original Equipment lead-free balance weight material in the USA & Japan

Flexible & local lead-free weights manufacture

Trax® series 150 universal weight for steel wheels. Excellent retention and appearance

TRAXLOK™ ...design and innovation from Trax®

The unique TRAX-LOK™ design locks the weight body securely to the clip. The clip and weight body are assembled using high speed automation.

100% STEEL

- 1 Proven & reliable Trax® quality clip
- 2 The rounded clip makes fitting easy
- 3 TRAX-LOK™ design to hold the weight body securely in place

CAM-BACK™ – universal weights for steel wheels

The TRAX® CAM-BACK™ solution for steel wheels combines universal fitment with high levels of retention

CAM-BACK™ design benefits

TOP CAM

SAFETY.
The top cam locks the weight on the rim

BOTTOM CAM

RETENTION.
The clip retention is increased when the cam forces the weight away from the rim

Trax® 150 series – universal weight for steel wheels
