Leading in balance weight innovation and design, manufacturing in the UK to Original equipment standards. From its origins in 1989, the Trax Brand is recognised as a leading balance weight manufacturer. Supplying both original equipment and the aftermarkets.

The company has continued to develop class-leading products which now also includes a portfolio of chemical products following the integration of The Gre-Solvent Company Ltd into TRAX JH Ltd, further increasing the market leading products that we offer.

The Gre-Solvent Company has been supplying the Automotive, Janitorial and Leisure industries with high quality solutions for over 100 years offering the most comprehensive and diverse range of products available on the market.

Manufacturing almost any liquid, gel or powder product, specific products or formulations can be created if we do not already have what you need.

Customer specifications can be met and tested in our well-equipped laboratory which also includes research and development of new formulations.
